Featuring a decadent three-course Lindt chocolate menu by celebrity chef Luke Mangan OAM, fine French Champanges and dazzling entertainment, this is an evening not to be missed.

About the Cause

Facioscapulohumeral Muscular Dystrophy (FSHD) is one of the most common forms of Muscular Dystrophy affecting adults and children. FSHD Global Research Foundation is a leading global Peak Body for FSHD, funding advocacy and research to fast-track therapies and a cure. Despite significant advancements, children with FSHD remain excluded from clinical trials, leaving them without access to potential life-changing treatments. This year, the Sydney Chocolate Ball is dedicated to changing that—ensuring no child is left behind in the race for a cure.
